Academic Year: 2025-26	Department of BCA	ACAD/R/11-S A

Department:BCA **Class:**SY **Div:** A & B **Subject:** Mathematics & Statistics **Subject Code** –CC-201-CA

Assignment I

Assigned Date : Submission Date: Course Objectives:

- 1) To provide students with a fundamental understanding of statistical concepts, data types, variables, and classification of data.
- 2) To enable students to organize, represent, and interpret statistical data using frequency distributions and graphical methods such as histograms.
- 3) To develop the ability to apply basic statistical techniques to real-life data and draw meaningful conclusions from the given information.

CO No.	Course Outcomes	BT Level
CC-201.1	Remember basic concepts and represent data diagrammatically	BT2

Question No.	Question	CO&BT
1	Define Statistics and explain its basic concepts. Differentiate between attribute, variable, qualitative data, and quantitative data with suitable examples.	CC-201.1 & BT2
2	Explain the difference between discrete and continuous variables. Give at least three suitable examples of each type.	CC-201.1 & BT2
3	What is meant by classification of data? Explain the different types of classification of data with suitable examples.	CC-201.1 & BT2
